WHY IS BEING AGILE SO RELEVANT?

AGILE MEANS

HIGH MOMENTUM

BEST QUALITY

CUSTOMER FIRST

EMPLOYEE EMPOWERMENT

In this ever changing business world, not being Agile equals to being out of the race. Agility will ensure that you are ahead of the competition, your business goals are achieved and your customers and team members are energized and motivated.

HOW CAN KNOWLEDGEHUT HELP YOU SUCCEED IN BECOMING AGILE?

The journey to successful Agile adoption is not always easy, as many enterprises have found. While Agile software development has proven to be significantly beneficial, businesses must be guided on how best to integrate the methodology into their operations.

We strive to help you achieve true Enterprise Agility by offering end-to-end Agile services and hand-holding you through the adoption of the 'Agile mindset' across your organizational matrix.

Accredited/Authorized partners to top agile bodies like Scrum Alliance, Scaled Agile Academy, Scrum.Org, Lean Kanban University, Disciplined Agile Delivery and ICAgile.

WHY ARE WE YOUR IDEAL AGILE PARTNER?

The number of agile transformations we have brought about reflect our popularity as an Agile company and the trust our customers place in our services such as Training, Consulting, Coaching and Staffing.

OUR ACHIEVEMENTS

- Delivered services to 1500+ organizations
- Helped 30,000+ individuals acquire new skills
- Pool of 200+ professional supporting us in our mission
- Best in class infrastructure with multiple labs to organize workshops

OUR APPROACH

At KnowledgeHut, we don't sell packaged solutions, processes or practices; instead we design them for you based on your need. Our approach involves identifying and defining change objectives, assessing processes, understanding people mindset, designing roadmaps for change and ultimately making the adoption a success by providing continuous support.

2 CONSULTING

We provide consulting with defined objectives such as running pilot for few teams, help in implementing tools like Jira, Confluence, Rally, VersionOne etc. We also offer consulting to kick-start your Scaling Framework implementation journey or setting up DevOps practices Our key areas of consulting include:
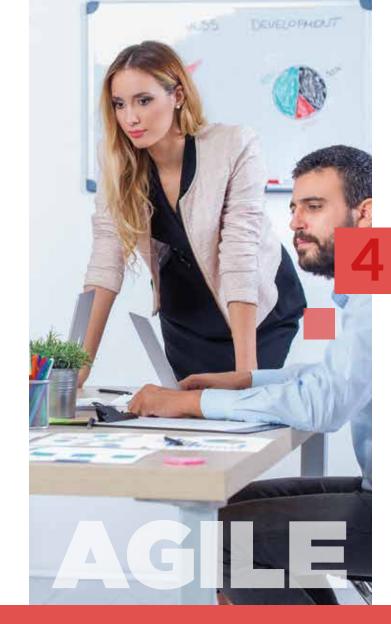

- DevOps consulting in the area of building DevOps teams, finding right toolchain for your organization, training staff on DevOps tools and running pilot.
- Setting up technical practices such as Behavior Driven Development, Test Driven Development and Continuous Integration etc.
- Setting up ALM tools and training.
- We provide support for Jira, Rally, TFS, SwiftKanban and VersionOne etc.
- Agile Health Assessment by independent coaches to ensure that your organization is moving towards goals by evaluating processes, people and culture etc.
- Help in rolling out frameworks like Nexus, LeSS, Kanban and Scrum by training staff, running pilot and designing information radiator.

3 COACHING

Small incremental changes in process and structure will fuel change in the organization; however, the real change comes when people in your organization believe in the change. Through careful analysis we must see what needs to be changed for people to feel motivated enough to persevere with the changes. This necessitates a fresh look at re-generative learning of the organization.

Our coaches help teams understand what success means for an agile organization. We support your success by providing services for Leadership Coaching, Product Coaching, Flow Coaching and Technical Coaching.

4 STAFFING SERVICES

We support your organization in acquiring the right people with the right mindset to expedite your agile journey.
